

Matching Anteriors @LAB Photography

Join Sascha Hein & Matthias Kronwitter

Have you felt frustrated & wasted time when the shade for a patient does not result in a successful match?

What about single central anteriors?

Re-dos are expensive and time consuming. Join us to learn how to limit re-dos for a better dentist and technician outcome

Sascha Hein graduated in Dental Technology in 1997 in Munich, Germany. In 2001 he completed further studies in dental ceramics under Masahiro Kuwata in Tokyo, Japan. In 2005 he graduated from Master School in Freiburg, Germany. In 2007 Sascha Hein was inducted into the international Oral Design group by founder Willi Geller. In 2012 he was inducted into the Bio-Emulation group which he served as president from 2014 – 2016. From 2013 - 2017 Sascha Hein furthered his education in colour science and optical physics under the mentorship of Professor Jaap ten Bosch. Sascha Hein is currently a postgraduate researcher at Leeds University's School of Design under Professor Stephen Westland.

Matthias Kronwitter graduated in Dental Technology in 2008 and then completed his Master Dental Technology school in 2015 in Ronneburg, Germany. In 2003 he completed further studies in dental ceramics at the Osaka Ceramic Training Centre. He has worked in Dental Laboratories for over 16 years gaining experience in fixed and removable prosthodontics, all ceramic restorations for both teeth and implant retained restorations and CAD/CAM digital workflows including EXOCAD and ZirkonZahn Modellier softwares. Matthias has worked closely with Sascha Hein in an eLAB Primer trainer. Matthias works at MDS Laboratory in Sydney specifically enjoys challenging cases of porcelain build ups for anterior teeth and single central incisors.
